

SCX is delighted to present the new 1:43rd scale SCX Compact line in our catalogue for the first time.

This new product line is the result of our drive for constant innovation and improved playability for model racing enthusiasts across all age ranges.

SCX Compact is the result of a strategic development effort to offer a range of products that are easy to assemble, require less space to play, maximize the

ability to keep cars on the track for young players, and increase the play value for consumers who are new to scale model racing. This year SCX Compact offers an exclusive worldwide licence with Moto GP.

SCX also offers SCX Compact racing sets for Gt/Le Mans, F-1 and DTM.

In 2008, SCX Compact also offers the ability to change lanes to overtake your competitor.

1:43 SCALE

FIRST STEP IN THE SCX WORLD OF COMPETITION. Specially designed for children aged 4 years old and over.

**+4
YEARS**

- New scale 1:43.

- Tracks easy to assemble and ready to play.

- Borders included on the tracks.

- Cars with stronger magnets to avoid derailments. Easy to play. More fun.

- Hand throttles with turbo button to reach high speed. Special size for children.
